Programa Genio (PG), the educational advocacy arm of the ABS CBN Foundation Inc., works in cooperation with the school division of the Department of Education to focus on strengthening the senior high school program.

As a school development program the primary goal for its adopted schools is to provide continuing assistance for teachers and students to gain knowledge, values, and skills necessary for them to become worthy and caring individuals and citizens.

One program that PG provides is Community Rebuilding through KASH (Knowledge, Attitude, Skills, Habits). This is geared toward a more holistic development of learners by having teachers who are ready not only physically but more so emotionally and mentally. We know that the Department of Education has given our teachers webinars on how and what to teach when face-to-face teaching and learning process could not be done. In addition to these efforts, we have also donated tablets to support digital learning initiatives. We hope to do our share by providing training which will have a stabilizing effect for our teachers and eventually for the students in times of emergencies and in facing the New Normal. Our combined efforts of training and technology provision aim to create a more resilient and adaptive educational environment.

Programa Genio would therefore like to conduct a school visit and monitor the utilization of tablets in school divisions in the Davao Region from February 4 to 7, 2025. Below are the proposed schedules for your approval.
