Dear Director Farnazo:

We are excited to announce that the **Philippine Science High School - Main Campus** will be holding its **26th Youth Mathematics, Science, and Technology (YMSAT) Festival** on **February 27 to March 3, 2023**. The theme of this year's festival is, "*Sapat Dapat: Siyensya, Agrikultura, Pananaliksik, at Teknolohiya para sa bayang malusog, ligtas, at masagana*". This year's theme celebrates the International Year of Millets which highlights the importance of science and technology in addressing food security amidst climate and public health concerns.

The second day of the festival (February 28), especially dedicated to guest teachers and students, consists of virtual talks, workshops, and competitions. These events aim to

- raise awareness of society's pressing issues on climate change, food security, and public health,
- equip and enhance teachers with STEM-skills that will help them navigate global STEM-related challenges,
- and provide an opportunity for students to showcase their knowledge, creativity, and innovations.

One of the activities that the students can participate in is the **Tagisan ng Mathitnik**, which is open to **Grades 5 to 6 students**. Attached is the invitation letter for your perusal.

We would be grateful if your office could encourage participation of students and teachers by **issuing an advisory and promoting it in your region**. Registration and admission to all activities of the festival are complimentary. If interested, more information is available on our official Facebook page (<https://www.facebook.com/ymsat2023/>) or the participants can email us at ymsat2023@pshs.edu.ph.

Thank you very much for considering our request and we hope to see your teachers and students at the festival. We are looking forward to your favorable response.

Sincerely,

Jericca Gunda
