Sir:

Greetings of peace and good health!

Embracing continuous learning fosters a growth mindset, where challenges are seen as opportunities for improvement rather than obstacles. Teaching is a vocation that requires constant growth, adaptation, and dedication since the educational landscape is ever-evolving with new teaching methodologies, technological advancements, and diverse student needs that emerge regularly. To be an effective and impactful teacher, an educator must be committed to lifelong and continuing learning. Hence, one way to achieve this is through attending seminars and workshops which will provide them with valuable insights and practical knowledge that can help them in their future teaching careers.

In line with this, we would like to request a permission to invite your *esteemed supervisors and experienced teachers* from different public schools within your jurisdiction to become our resource speakers for the various topics related to the Field Study 1 and Field Study 2 of our students. This endeavor will be conducted as part of the **Pre-Service Teachers' Summit 2023** dubbed with a theme: "*Pathways to Pedagogical Mastery: Unveiling the Arts and Science of Teaching*". These seminars and workshops aim to provide our Education students with valuable insights into innovative teaching techniques and strategies. We firmly believe that your teachers' expertise and experiences in this field would greatly benefit our students and contribute to their growth and development as future educators.

Attached herewith is the list of the supervisors and experienced teachers with the topics they will be discussing as well as the scheduled date and time for your perusal and guidance. However, we understand the demands of the current situation, and we assure you that we will strictly follow the health and safety protocols set by the government and the Department of Education.

Thank you for your time and consideration. We look forward to your positive response.

Respectfully yours,
