Sir,

Greetings!

Adolescent development is a period marked by significant physical, emotional, and psychological changes. They may be more susceptible to mental health challenges due to these changes. Increasing Awareness: Adolescents may not have a comprehensive understanding of mental health issues or their own mental well-being. A seminar can help raise awareness about the importance of mental health and well-being during this critical stage of development.

In line with this, we are humbly requesting **Ms. Mary Kristine C. Sagot** as our resource speaker for the mental health awareness for Grade 11 students" that aims to raise awareness for our learner's mental well-being on October 14, 2023, 2:00PM at New Corella NHS mini gym. Rest assured that there will be no disruption of classes.

We look forward to your positive response and the opportunity to work together to advance the cause of child protection policy.

Thank you so much.

Sincerely,

MARIVIC B. ABA-A
Guidance Counselor III
